LISTING OF CLAIMS

- 1. (Original) A dosage form comprising a prostaglandin or a prostamide and a trefoil factor family peptide.
- 2. (Original) The dosage form of claim 1 wherein the concentration of the prostaglandin or prostamide is from 0.001% to 0.1%.
- 3. (Original) The dosage form of claim 1 wherein the concentration of the trefoil factor family peptide is from 0.001% to 1%.
- 4. (Original) The dosage form of claim 1 wherein the concentration of the trefoil factor family peptide is from 0.01% to 0.5%.
- 5. (Original) The dosage form of claim 1 wherein the concentration of the trefoil factor family peptide is from 0.1% to 0.2%.
- 6. (Original) The dosage form of claim 1 wherein the concentration of the trefoil factor family peptide is about 0.15%.
- 7. (Original) The dosage form of claim 1 which further comprises a mucoadhesive.
- 8. (Original) The dosage form of claim 1 which further comprises a polysaccharide.
- 9. (Original) The dosage form of claim 1 which further comprises Tamarind seed polysaccharide.
- 10. (Original) The dosage form of claim 1 wherein the trefoil family factor peptide is TFF3.
- 11. (Original) The dosage form of claim 1 wherein the trefoil family factor peptide is TFF1.
- 12. (Original) The dosage form of claim 1 wherein said dosage form comprises bimatoprost.
- 13. (Original) The dosage form of claim 9 which comprises bimatoprost.
- 14. (Withdrawn) A method of treating ocular or conjunctival hyperemia in a person comprising administering topically to an eye of said person a therapeutically effective amount of a trefoil factor family peptide, wherein said person is being treated for glaucoma or elevated intraocular pressure with a prostaglandin-related compound.
- 15. (Withdrawn) The method of claim 14 wherein the trefoil factor family peptide and the prostaglandin-related compound are administered in a single composition.
- 16. (Withdrawn) The method of claim 14 wherein the trefoil factor family peptide and the prostaglandin-related compound are administered separately.
- 17. (Withdrawn) The method of claim 14 wherein said trefoil factor family peptide is administered in a dosage form comprising a mucoadhesive.
- 18. (Withdrawn) The method of claim 14 wherein said trefoil factor family peptide comprises TFF1 or TFF3.
- 19. (Withdrawn) The method of claim 17 wherein said person is being treated with bimatoprost.
- 20. (Withdrawn) The method of claim 17 wherein said mucoadhesive comprises a polysaccharide.
- 21. (Withdrawn) The method of claim 19 wherein said trefoil factor family peptide is administered with Tamarind seed polysaccharide.

- 22. (Original) The dosage form of claim 1, wherein said prostaglandin or prostamide is a prostaglandin F-related compound.
- 23. (Original) The dosage form of claim 2 which comprises Tamarind seed polysaccharide, about 0.5% sodium chloride, about 0.005% benzalkonium chloride, and about 0.6% of a borate buffer wherein the pH of the composition is adjusted to from about 6 to about 8.
- 24. (Original) The dosage form of claim 23 which comprises about 0.03% bimatoprost.
- 25. (Original) The dosage form of claim 23 which comprises about 0.005% latanoprost.
- 26. (Original) The dosage form of claim 23 which comprises about 0.004% trayoprost.
- 27. (Original) The dosage form of claim 23 which comprises about 0.15% unoprostone isopropyl.
- 28. (Original) A pharmaceutical product comprising
- a composition comprising a therapeutically effective amount of a prostaglandin Frelated compound and a therapeutically effective concentration of a trefoil factor family peotide, and
- a package suitable for ophthalmic use from which said composition is dispensed, wherein the use of the composition for the prevention or treatment of glaucoma is indicated thereon.
